WHY SUNON BLINDS?

More than 25 years ago, Sunon was born, a company formed by experienced personnel focused on the sector, since January 1993, we stand out for the wide range of solutions we can provide you with. Sunon has professional collaborators from various sectors, such as architects, engineers, window manufacturers, curtain wall manufacturers, and builders who provide the right systems for the execution of the project; for this reason, the company is recognised as one of the best in the industry

for the quality of their work. We ensure that every project eliminates all types of openings and gaps and provides a highly designed, comfortable, energy-saving and environmentally friendly façade. We specialise in technical and adjustable roller shutter systems, with dynamic elements for residential sun protection, façades, security, and tunnel boxes, as well as motorisation systems. We also take care of product manufacturing, distribution and installation.

ADJUSTABLE ROLLER SHUTTER SUN_AIR

Sunon is present in all phases of the project. From advice to architects, to customized solutions for any type of renovation.

As a customer, through a virtual test, you can visualize the variety of options according to your project.

We will provide you with a technical and economic study where the total service will be provided, which includes: products, assembly, advice and after-sales maintenance.

ADJUSTABLE ROLLER SHUTTER

Sun_air is an aluminum roller shutter system with adjustable slats. It can be operated, both up and down, like a normal roller shutter. When fully lowered, Sun_Air allows gradual adjustment of the slats to adjust the level of light and air entering the room.

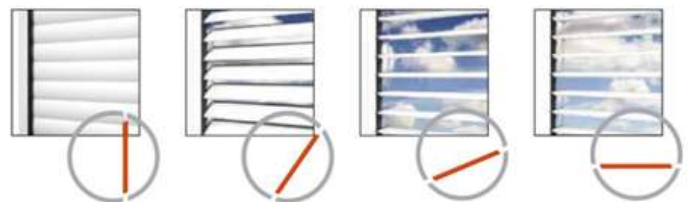

It has a simple and silent operation. With Sun_Air it is possible to create your own spaces, with maximum comfort, without sacrificing privacy. The use of Sun_Air is simple and achievable for anyone. It can be operated with commercially available radio motors. Sun_Air can be integrated into domotic systems, contributing to energy saving and passive safety.

ADJUSTABLE SYSTEM

The adjustable system allows all louvers to be gradually adjusted from 0° to 90°, in order to move from half-light to the progressive adjustment of light and air. The special design of the louvers allows water to flow outwards in case of rain, even in the maximum opening position.

- **Approximate weight: 10.5 kg/m²**
- **Nominal thickness: 15,5 mm**
- **Slat height: 60 mm**
- **Maximum dimensions per panel: 200 x 280 cm (W x H)**
- **Complies with UNI EN 13659 standard:**
- Wind resistance CLASS 6**
- Mechanical resistance: CLASS 3**
- **Thermal Envelope: Improves the thermal envelope of the building by reducing the Shading Factor (Fs*).**
- * Fs: According to Table 14 of the Supporting Document of DB-HE1 of the Technical Building Code.

PHOTOGRAPHIES:

QUALITY RAW MATERIALS

The whole process of product quality is tested, for this reason, Sun_Air uses the best raw materials and the best raw materials and the most advanced technology on the market.

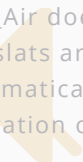

PATENTED SYSTEM

Sun_Air is the first roller shutter with adjustable slats that swivel from 0o to 90o.

RELIABLE AND NOISELESS

Sun_Air does not use complex mechanisms, the slats are oriented naturally and automatically, by their own force of inertia. The operation of Sun_Air is smooth and noiseless.

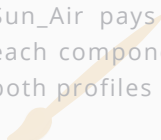

AHORRO DE ENERGÍA

Sun_Air helps to reduce household energy costs.

DISEÑO

Sun_Air pays special attention to the design of each component, offering a choice of colours for both profiles and components.

CONFORT Y PRIVACIDAD

The adjustable slat adjustment system ensures maximum comfort guarantees maximum comfort and at the same time maximum privacy at the same time.

MEDIO AMBIENTE

All Sun_Air components, both aluminium profiles and PVC components, are 100% recyclable.

Primary aluminum, stainless steel, and special plastics are the main materials that Sun_Air uses, therefore, it is 100a recyclable.

Sun_Air is maintenance-free and is a certified product.

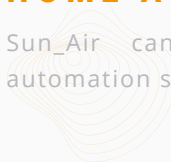

EASY AND SIMPLE

Sun_Air is easy to install and simple to use, just like a standard roller shutter.

HOME AUTOMATION SYSTEMS

Sun_Air can be integrated into any home automation system.

ESCASO MANTENIMIENTO

Sun_Air requires little maintenance. Cleaning is safe thanks to rounded shapes and protection from cuts and sharp edges.

MARCADO CE

Sun_Air complies with UNI EN13659 and is CE marked.

MAYOR SEGURIDAD

Sun_Air is made of reinforced aluminium profiles and stainless steel components, which contribute to increasing the passive safety of the house.

DISEÑO RECONOCIDO

Sun_Air won the Archiproducts Design Awards 2017, which recognizes excellence in the field of design.
